Digital Industries

## You Said

## We Did

We need additional *training* and *education* to compliment the increasing use of technology and AI

Using funds from the Local Skills Improvement Fund, Cirencester College is developing *new IT learning environments*, and all FE colleges are integrating greater digital skills needs to prepare learners for the future of work

We need more *soft skills training* e.g. adaptability, resilience and problem solving

In response to the LSIP findings, *critical work skills* have been highlighted in all colleges' responses, with various strategies to integrate further business needs including with Gloucestershire College's strategic planning to reinvigorate curriculum areas through greater integration of employer engagement activities

We need more education around *career pathways*

We are working with Gloucestershire County Council, Gloucestershire Employment and Skills Hub and The Careers & Enterprise Company to review the Gloucestershire Skills and Careers Portal and ensure it aligns to employer's needs as reported in the LSIPs as well as those looking for *careers and skills advice and guidance*

We have made lots of positive steps towards *sustainability*, but need more support

In recognition of the need for further green skills support in the local area, Climate Leadership Gloucestershire is recruiting a *Green Skills Co-Ordinator* who will work within Gloucestershire County Council's Employment and Skills Hub

## What's next and how can I get involved?

Access our *Signposting Local Provision service*

Bespoke signposting to local provision based on your skills needs and business priorities

Speak to one of our *Skills Advisors*

Business Skills Advisors can work with you to identify your skills needs and signpost to training opportunities in the local area

Attend our *Meet the Expert events*

To shine the spotlight on different industries, highlight the scope of roles available and the skills needed for the sector

We couldn't deliver the LSIP and achieve this impact without our partners:
